Cheating can happen in a lot of different ways. When people cheat, it's not fair to other people, like the kids who studied for the test or who were the true winners of a game.

Many people like the action of cheating. It makes difficult things seem easy, like getting all the right answers on the test. But it doesn't solve the problem of not knowing the material and it won't help on the next test... unless the person cheats again.

Some people lose respect for cheaters and think less of them. The cheaters themselves may feel bad because they know they are not really earning that good grade. And, if they get caught cheating, they will be in trouble at school, and maybe at home, too.

Some kids cheat because they're busy or lazy and they want to get good grades without spending the time studying. Other kids might feel like they can't pass the test without cheating. Even when there seems to be a "good reason" for cheating, cheating isn't a good idea.

If you were sick or upset about something the night before and couldn't study, it would be better to talk with the teacher about this. And if you don't have enough time to study for a test because of swim practice, you need to talk with your parents about how to balance swimming and school.

A kid who thinks cheating is the only way to pass a test needs to talk with the teacher and his or her parents so they can find some solutions together. Talking about these problems and working them out will feel better than cheating.

25. The author thinks that when kids cheat in class, _____.

- A. it is unfair to other people B. it does harm to their health
C. teachers should punish them D. teachers shouldn't stop them at once

26. Some students like cheating mainly because _____.

- A. the material in the test is very difficult
B. they want to do better than the others
 C. cheating can make hard things seem very easy
D. they have little time to study their lessons

27. The fourth paragraph mainly tells us _____.

- A. cheating isn't a good idea
B. why kids cheat in the test
 C. some kids can't pass the test without cheating
D. some kids don't spend the time studying

28. We can learn from the passage _____.

- A. cheaters are often thought highly of
B. people show no respect for those who cheat
C. parents whose kids cheat are often in trouble
D. kids cheat in the test because of swim practice

When my daughter Sara was in the fifth grade, she came to me with a problem. "Nancy hates me!" she cried. "Because Kathy is my friend, too. She wants me to be her friend and nobody else's. You talk to Nancy. You tell her that I want to be her friend, but I can have other friends, too!"

I looked at her for a few moments, wondering how I got into this mess, when suddenly an idea came to me.

Picking up two baskets from the living room, I explained, "When everyone is born, he or she has a little basket. This little one here is yours. The big one is mine. As you grow, so does the basket. You can see your little basket is inside mine because when you were born, there were too many things you couldn't do for yourself. I did everything you couldn't do on your own."

She nodded.

"Well, as you grew older and began to do some things on your own, I began placing a few more things in your basket. When you learned to tie your shoes, that went in your basket."

She said softly, "I can tie my own shoes."

"Right. As you grow older, there will be more and more things you must do on your own." As I spoke, I gradually took her basket out of mine and handed it to her. "You will finally carry your own basket with things only you can do."

第二节 (共5小题, 每小题2分, 满分10分)

根据短文内容, 从短文后的选项选出能填入空白处的最佳选项。选项中有两项为多余选项。

36. You probably think you will never be a top student. This is not necessarily so, however. Anyone can become a better student if he or she wants to. Here's how:

Plan your time carefully. When planning your work, you should make a list of things that you have to

do. After making this list, you should make a schedule of your time. First your time for eating, sleeping, dressing, etc. Then decide a good, regular time for studying. 37 A weekly schedule may not solve all your problems, but it will force you realize what is happening to your time.

Find a good place to study. Look around the house for a good study area. Keep this space, which may be a desk or simply a corner of your room, free of everything but study materials. No games, radios, or television. When you sit down to study, concentrate on the subject.

Make good use of your time in class. 38 Listening carefully in class means less work later. Taking notes will help you remember what the teacher says.

Study regularly. When you get home from school, go over your notes, review the important points that your teacher is going to discuss the next day, read that material. 39 If you do these things regularly, the material will become more meaningful, and you'll remember it longer.

Develop a good attitude towards tests. The purpose of a test is to show what you have learned about a subject. They help you remember your new knowledge. The world won't end if you don't pass a test, so don't be over worried.

40 You will probably discover many others after you have tried these.

- A. There are other methods that might help you with your studying.
- B. Don't forget to set aside enough time for entertainment.
- C. Take advantage of class time to listen to everything the teacher says.
- D. No one can become a top student unless he or she works hard.
- E. Maybe you are an average student.
- F. Make full use of class time to take notes of what the teacher says in class.
